# CORVAN ANTIICS

A CHARTERED CHAPTER OF CORSA, CORVAIR SOCIETY OF AMERICA

Here we are at the beginning of yet another year. It has now been 40 years since the last FC was produced. Good thing, or bad thing? Only driver's know for sure. As automotive evolution goes, the later the production, the better the design. Oh, not necessarily the body work, but the engineering improves each year. So it is with the Corvair FC. Improvements such as going to an alternator, a front suspension with more interchangeable parts, and an improved turn signal are some examples. Inside are a few examples of the 1965's.

Well, how about that. The answers to the trivia question in the last issue were on page 7 of my computer display, but when the newsletter came back from the printer, they were gone. I'll have to really watch that, I guess. Anyway, did you catch the correct answers? Clark Hartzel did. In the first picture, it appeared as though the boy was naked. Let's hope it was an optical illusion. In the second picture, there were several items. The ones I noticed were the missing nameplate, mirror, and door panels. Clark also mentioned that there was a canoe, but no roof rack to haul it. So, since Clark was the only correct answer (actually, the only answer), he wins the grand prize of being recognized for his good eyesight! Thanks, Clark!

I just received a new toy. A 1965 Deluxe 8-door Greenbrier, that I won at the annual NTCA auction. Not sure what I'm going to do with it. Last thing I need is another project! This one needs lots of tender, loving care!

I hope everyone had a safe and happy holiday season, and we're all looking forward to another good year in Corvanatics land.

# RIDING WITH THE PRESIDENT

Happy New Year 2005!

Well, here we are at the start of a new year. I hope you and your family had a joyful and safe holiday. It is a great time of the year for all.

Now is a very good time to set down some guidelines for 2005 like finishing some ongoing home "honey do's," making a million dollars, and completing the Corvair projects, you know, the tune-ups, the engine rebuild, the brake job, and the paint job that you have been putting off. You need to do all of these things early in the year so you will be ready for the July convention in Portland. I know it is just January, but now is the time to start plans for Portland. As you know, this is the only meeting of the year for Corvanatics, and it is worth the trip just for the meeting. □ □ 

It was nice to read in the last issue of the Corvanatics that we have a member returning to the "FC" fold. This is what we need to keep the "FC" in the spotlight and the interest growing. We need more "FC" owners and operators to attend meetings, shows, and conventions. If you know of someone that's on the edge of buying, trading, or completing a "forward control," please do whatever it takes to help get them over the edge. It will benefit all of us.

Happy New Year!  
Until Next Time,  
*Corbin Jayloe*

A few pictures sent to me by Richard Gebhardt after the Lexington Convention of our beloved FC's in action.

I'm afraid he did not identify the owners, so I cannot credit them for their work!

Not much of an explanation needed here!

## MORE CAMPERS

Carole and Marsh Hessler write:

Enclosed are pictures of a 1962 Greenbrier camper from 20 years ago. As you can see, the owner, "Dawg" has taken it as his home. Pretty fancy doghouse, eh? We leave the doors open all the time so that he has a place to keep dry during wet spells here in San Diego. We found "Dawg" at the Palm Springs Fan Belt Toss in the early eighties and he adopted us.

Here are a few pictures of some other campers we have had over the 40 plus years of FC ownership.
